

NAVDEEP KAUR

navdeepk1104@gmail.com | +91 9878082408 | [LinkedIn](#) | [Github](#)

Aspiring Software Engineer with hands-on experience in full-stack development and currently enhancing skills through internships in backend development and data fundamentals. Seeking an opportunity to contribute to scalable software systems while strengthening problem-solving and development skills.

EXPERIENCE:

Full Stack Development Intern | CDAC, Mohali (Feb - Present)

- Developing full-stack web applications using **Angular (frontend)** and **Node.js / Spring Boot (backend)**
- Designing and consuming **RESTful APIs** for seamless frontend-backend communication
- Implementing CRUD operations and handling data using MySQL
- Working with modular frontend architecture and backend routing/middleware
- Testing and debugging APIs using Postman

Data Science Intern | Sabudh Foundation (Jan – Present)

- Building a RAG-based system for intelligent question answering
 - Performing data pre-processing and document chunking for efficient retrieval
 - Working with embeddings and similarity search for semantic understanding
 - Exploring machine learning and NLP techniques for improved response generation
-

PROJECTS:

Expense Tracker Application | Java, Spring Boot, MySQL

- Designed and developed a full-stack expense tracking web application using Spring Boot for backend services and React.js for the frontend.
- Implemented RESTful APIs to perform CRUD operations on expenses and categories. Integrated MySQL database for persistent storage and efficient data retrieval.
- Tested and validated backend APIs using Postman.
- Followed a layered architecture to improve maintainability and scalability

RAG-Based Question Answering System (Self Project) | LangChain, Chroma, Ollama

- Built a basic Retrieval-Augmented Generation (RAG) system for context-aware question answering
 - Implemented document chunking and similarity-based retrieval for relevant context
 - Used embeddings for semantic search and improved answer relevance
 - Integrated retrieval with a language model to reduce hallucination.
-

EDUCATION:

Guru Nanak Dev University, Amritsar | BTech in Computer Science And Engineering | Currently 8.34 CGPA | 2022-2026

Secondary Education (XII) | 94 percentage | 2022

Secondary Education (X) | 95 percentage | 2020

TECHNICAL SKILLS:

- **Languages:** Java, JavaScript, Python
- **Backend Development:** Spring Boot, Node.js, RESTful APIs
- **Frontend:** React.js, Angular, HTML, CSS
- **Databases:** MySQL
- **Tools:** Git, GitHub, Postman, VS Code, IntelliJ IDEA
- **Core Concepts:** OOP, DBMS, Data Structures & Algorithms
